

# *Welcome Everyone*

Tonight's Educational Forum on

# Adaptive Hunting & Fishing

Will begin shortly

***Thank you everyone for coming to tonight's virtual session on adaptive hunting & fishing. This is a continuation of Oregon Spinal Cord Injury Connection's ongoing sessions of Educational Forums. Tonight's forum will be recorded for our community members that couldn't attend. Please do not share any personal information that you aren't comfortable with being recorded. We'd like everyone to know this is a safe space to share and ask questions, so please respect others opinions and experiences. Please stay muted during all the presentations and you can put questions in the chat or save them till the end. Thank you.***

# Tonight's Speakers

**Coleton Curtis**

**Matt Howard**

**Chad Waligura**

# Got Questions??

**This is a great time to ask our knowledgeable presenters for tips, tricks, and for accessible device recommendations**

**We'd love to hear from some of our attendees, please answer these questions.**

- **What are your biggest interests in hunting and fishing?**
- **Would you be interested in adaptive in-person workshops?**
- **What barriers have prevented you from starting, or getting back out hunting and fishing?**

***"Thank you very much, everyone, for participating in this educational forum. We hope it was useful to you and we are encouraged and grateful for your interest and time. We need to ask something of you... it would be extremely helpful to all of us who are involved in the ed forums to receive your candid and honest feedback on this particular event. Please do feel free to share openly, as any and all input will truly help us.***

***I am going to turn off the zoom recording now and then ask the feedback questions and note the responses. Thank you for staying online for a few minutes longer if you can."***
